

Dissemination and Use of the Results

Let's Discover Europe Together Finding Harmony in Differences – EUROPE'S FRIENDS – 2017-1-RO01-KA219-037409_1 2017-2018

Coordinator: Turkey/Serkan ERDOĞAN

At school level

Dissemination of the project results will be made for:

- the students in the school to make them to become aware that an European partnership is developed in their school and present them the project benefits
- the school teachers to inform them and make them to appreciate and promote the work of their colleagues in the community (families, relatives, friends)

At local/regional/national level

Dissemination of the project results will be made for:

- parents to inform them about Erasmus+ Programs and their benefits, to find out how to check their abilities; those who are more curious could learn about the different learning possibilities offered to the students in Europe. The parents will appreciate the school initiative and promote the school image in the family, in the circle of their friends, at their job, in their local community
- local authorities, that will be informed about the partnership and will be asked to invite the visitors to the Town Hall for a meeting and to valorize the project publishing an article on their website; they have also to show their support for the European programs in general.
- the local and national educational authorities to promote the school image
- the people involved in testing students' abilities, the European teachers who could benefit about our experience and develop European partnerships
- the people who are interested to initiate an Erasmus+ partnership and want to inform about the previous experiences and learn before developing their project
- to the teachers in the local and regional schools that will be learnt how to use the information on the project website, to use them with their students and offer us feedback: these will be made to valorize the project activities and the exchange of good practices.

Dissemination Plan

Multiplication effects

The multiplication will be based on a complex plan of dissemination, which will include the following ways.
